

## CSBS Releases 2021 Annual Report

Apr 20

CSBS is pleased to present its [2021 Annual Report](#). For the first time, CSBS achievements and NMLS operations and performance are combined in one report. That means all information previously shared through the annual SRR reports is included in the 2021 CSBS Annual Report. The new format captures the full breadth of the state system, representing One CSBS.

The report highlights the state system priorities, including:

- Creating the state system of the future through Networked Supervision
- Strengthening supervision through data, platforms and partnerships
- Opposing federal preemption to protect the dual-banking system
