

Coming Sept. 20: The New NMLS Resource Center

Sep 08

On Sept. 20, we're launching a redesigned Resource Center built for speed, simplicity, and a frustration-free experience.

The current state and federal Resource Centers will retire, making way for one modern, intuitive hub that puts answers at your fingertips.

What's New?

- **Navigation made simple:** Resources organized by user type and task.
- **Smarter search:** Quickly find accurate, up-to-date information.
- **No more dead ends:** Broken links, duplicates, and outdated pages are gone.
- **Help at your fingertips:** Self-service tools so you don't have to wait.
- **Streamlined resources:** Licensing, registration, and compliance information in a clean, modern format.
- **Note:** On Sept. 20, all existing bookmarks will seamlessly redirect to the new homepage.

Built With You

We built the new Resource Center with you, not just for you. Hundreds of NMLS users shaped the design through card-sorting, testing, and real-world feedback, so the information you need is right where you expect it.

Stay in the Loop

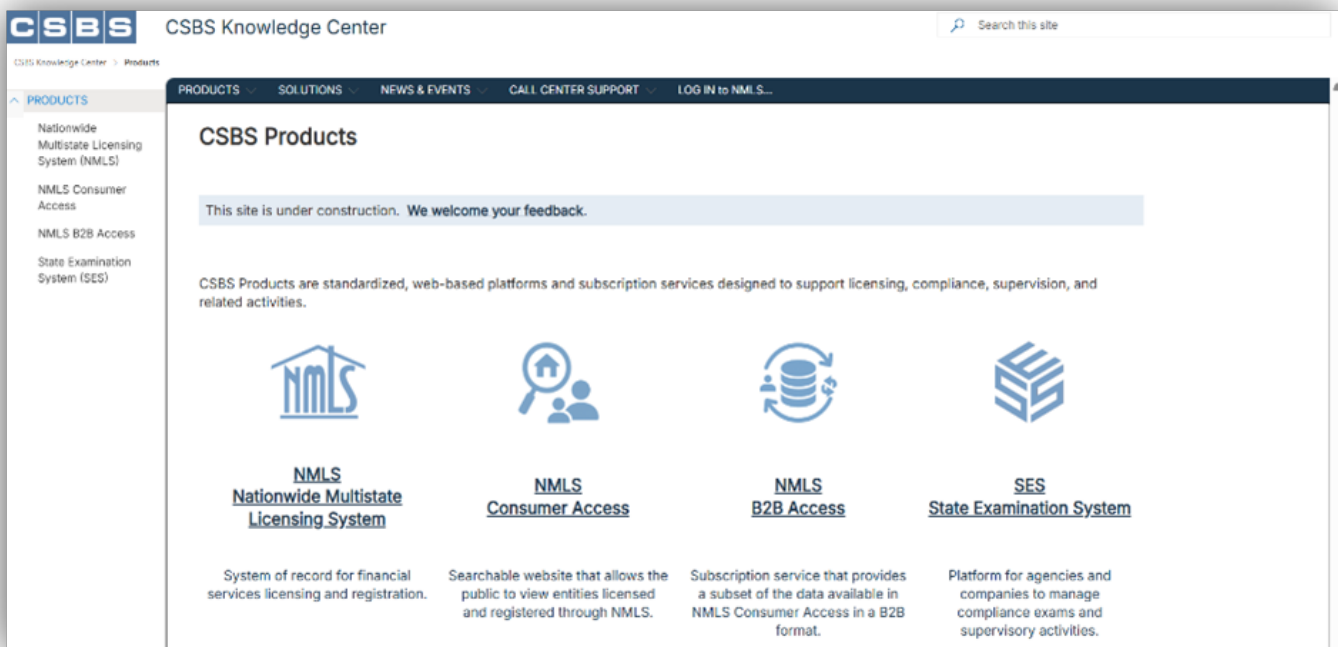

Sept. 20 is just the beginning. As NMLS modernization continues, we'll keep refining and adding to the Resource Center based on your feedback.

Be the first to know what's next. Sign up for updates at csbs.org/mod.

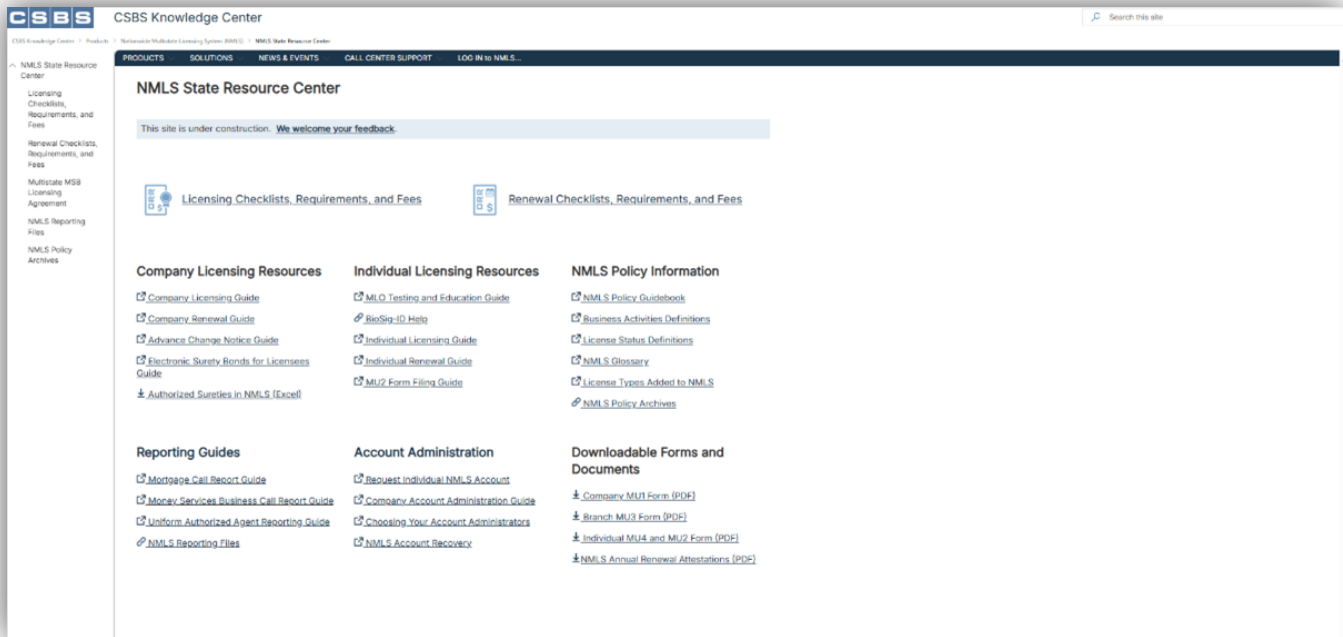

Preview

The redesigned Resource Center will reorganize all CSBS product knowledge in one comprehensive site, including NMLS, SES, and NMLS Consumer Access.

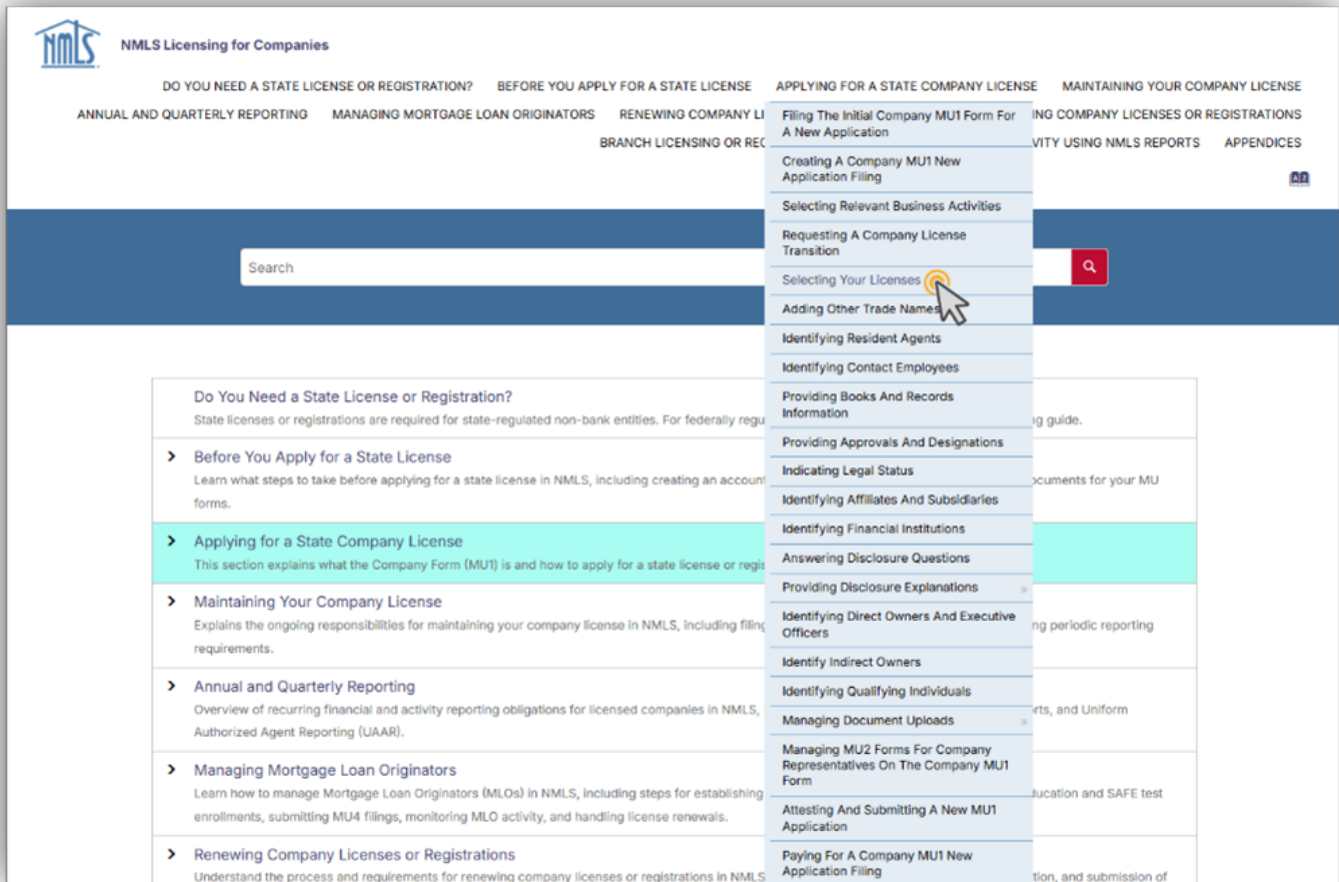

To access the NMLS information in the redesigned Resource Center, you will select NMLS from the list of CSBS Products.

After selecting a user type, you will be provided with a library of resources.

You can browse the resources.

Here is an example of an article on the redesigned Resource Center.

The screenshot shows a web page with a dark blue header containing a search bar. Below the header is a breadcrumb trail: Home / Applying for a State Company License / Selecting Your Licenses. A left sidebar lists various steps in the application process, with 'Selecting Your Licenses' highlighted. The main content area is titled 'Selecting Your Licenses' and includes an introductory paragraph, a 'Before you begin' section with a link to 'Selecting Relevant Business Activities', an 'About this task' section explaining the importance of license selection, a 'Procedure' section with five numbered steps, a highlighted 'Note' box, and a 'What to do next' section with a link to 'Adding Other Trade Names'. At the bottom, there is a 'Target' section and contact information for the NMLS Call Center.

- Identifying Direct Owners and Executive Officers
- Identify indirect owners

Selecting Your Licenses

Choose the appropriate licenses your company needs to apply for or transition, based on the states in which you plan to operate and the business activities you conduct.

Before you begin ✓

[Selecting Relevant Business Activities](#)

About this task

When completing the Company MUT Filing, you must select the licenses your company is applying for or transitioning. License selection is based on your company's business activities and the states where you intend to operate. Each state may offer multiple license types, so it's important to review state-specific requirements before making your selections.

Procedure

1. Select the licenses or registrations for which you are applying.
2. Enter your existing license number if you are transitioning a current license as instructed by your regulator.

Note: Contact the appropriate state regulator if you have questions regarding specific licenses or registrations.

3. Click **Next**.
4. Confirm the licenses or registrations you have selected.
5. Click **Continue with Filing**.
