## Notes

1. The Hawaii Division of Financial Institutions has indicated that it is not able to release the number of license applications denied.

## Definitions

Approved-Status assigned when regulator has reviewed the license/registration application and decided to issue a license to the applicant through NMLS.
Denied-Status assigned when a regulator has reviewed the license/registration application and determined that sufficient grounds exist to deny the request. This status may also be used by regulators who deny a renewal request for license.
Withdrawn- Status assigned when an applicant has been approved to voluntarily withdraw their application or has not responded to regulator requests for additional information within a timely manner.

Revoked-Status assigned when a regulator has taken action to revoke the license/registration. Pursuant to federal SAFE legislation, placement of a MLO license into this status will render the MLO unable to obtain or maintain a license to conduct mortgage business in any jurisdiction.
Surrendered-Status assigned when a regulator approved a surrender/cencellation request submitted by the licensee/registrant.
Terminated-Status assigned when a regulator expires a license/registration.
