This section evaluates various aspects of the "people" side of the agency. This section will assess the policies for maintaining a fair and safe workplace and how effectively the agency attracts, trains, and retains its examination staff. The standards assume that a superior agency provides a clear, adequate and consistent set of rules for the treatment of employees. This section does not require any one method of training. Instead, it assesses the effectiveness of an agency’s chosen method to train its staff. On-the-job training, formal classroom instruction and seminars can comprise an adequate training program.
