Independent Auditor's Report

To the Board of Managers
State Regulatory Registry LLC

We have audited the accompanying financial statements of State Regulatory Registry LLC (SRR), a limited liability company whose sole member is the Conference of State Bank Supervisors, Inc., which comprise the statements of financial condition as of December 31, 2016 and 2015, and the related statements of operations and owner's equity and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to SRR's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SRR's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of State Regulatory Registry LLC as of December 31, 2016 and 2015, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

State Regulatory Registry LLC

Notes to the Financial Statements

A. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization: The State Regulatory Registry LLC (SRR) is a nonprofit entity that operates Nationwide Multistate Licensing System and Registry (NMLS) on behalf of state financial services regulatory agencies. SRR is governed by an eight-member Board of Managers comprised of state banking and financial regulators and a representative of the American Association of Residential Mortgage Regulators (AARMR). The SRR Board of Managers is responsible for all development, operations, and policy matters concerning NMLS.

SRR is a single-member limited liability company owned entirely by the Conference of State Bank Supervisors, Inc. (the Conference). The Conference was founded in 1902 as a nonprofit organization. The primary purpose of the Conference is to assure the ability of each state banking authority to provide safe, sound, and well-regulated financial institutions to meet the unique financial needs of local economies and their citizens. Its members are public entities who charter, regulate, and supervise state-chartered banks of the United States. State bankers are also members.

NMLS is a web-based system that allows state-licensed non-depository companies, branches, and individuals in the mortgage, consumer lending, money services businesses, and debt collection industries to apply for, amend, update, or renew a license online for all participating state agencies using a single set of uniform applications. Mortgage loan originators employed by insured depository institutions are also registered through NMLS. NMLS brings greater uniformity and transparency to these non-depository financial services industries while maintaining and strengthening the ability of state regulators to monitor these industries and protect their citizens. NMLS began operation on January 2, 2008. All individual mortgage loan originators are represented in the system.

Income taxes: As a single-member limited liability company, SRR is treated as a disregarded entity for income tax purposes. Thus, SRR's financial activity is reported in conjunction with the Federal income tax filings of the Conference.

Basis of accounting: SRR prepares its financial statements on the accrual basis of accounting. As such, revenue is recognized when earned and expenses when the underlying obligations are incurred.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from estimates.

Cash and cash equivalents: For financial statement purposes, SRR considers all highly liquid investments with an original maturity of three months or less that are not held in investment accounts to be cash equivalents.

A. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Accounts receivable: Accounts receivable consist primarily of NMLS processing fees for system transactions pending final processing by the bank, education course and credit banking fees, and registration fees for user training courses. Accounts receivable are presented at the net amount due to SRR (i.e., gross amount less allowance, if any). SRR's management periodically reviews the status of all accounts receivable balances for collectability. Each receivable balance is assessed based on management's knowledge of the customer, SRR's relationship with the customer, and the age of the receivable balance. SRR has established an allowance for doubtful accounts to estimate the portion of receivables that will not be collected. The allowance was less than \$1,000 as of each December 31, 2016 and 2015. This allowance is regularly reviewed by management.

Deferred revenue: Deferred revenue consists of NMLS processing fees paid in advance to SRR by certain participating states.

Owner's equity: SRR has designated a portion of its owner's equity as a reserve for the continued future maintenance and upgrading of NMLS.

Subsequent events: Subsequent events have been evaluated through April 28, 2017 which is the date the financial statements were available to be issued.

B. CREDIT AND MARKET RISK

Cash: SRR maintains demand deposits and overnight treasury fund sweep accounts with commercial banks. At times, certain balances held within these accounts may not be fully guaranteed or insured by the U.S. federal government. SRR has not experienced any such losses in the past, and does not believe it is exposed to any significant financial risk on these cash balances.

Investments: SRR invests primarily in mutual funds and exchange-traded funds (ETFs). Such investments are exposed to market and credit risks. Thus, SRR's investments may be subject to significant fluctuations in fair value. As a result, the investment balances reported in these financial statements may not be reflective of the portfolio's value during subsequent periods.

C. INVESTMENTS AND FAIR VALUE MEASUREMENTS

SRR has implemented the accounting standard regarding fair value measurements. The standard defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. The standard uses the following prioritized input levels to measure fair value. The input levels used for valuing investments are not necessarily an indication of risk.

Level 1 – Observable inputs that reflect quoted prices for identical assets or liabilities in active markets such as stock quotes;

Level 2 – Includes inputs other than level 1 inputs that are directly or indirectly observable in the marketplace such as yield curves or other market data;

Level 3 – Unobservable inputs which reflect the reporting entity's assessment of the assumptions that market participants would use in pricing the asset or liability including assumptions about risk such as bid/ask spreads and liquidity discounts.

The following is a summary of the input levels used to determine fair values, measured on a recurring basis, of the investment assets at December 31, 2016 and 2015:

Interest on the average outstanding borrowed balance (in excess of related party receivables) is compounded monthly at a fixed rate of six percent for the years ended December 31, 2016 and 2015, as agreed to by the Boards of each organization. In addition, SRR may incur certain costs on behalf of the Conference. The Conference reimburses SRR for these costs. The total amount due from the Conference, net of amounts owed by SRR for accrued liabilities, was \$138,174 and \$119,893 at December 31, 2016 and 2015, respectively. Administrative and overhead costs, such as rent for SRR's portion of office space, are allocated on the basis of the percentage of office space each department's or entity's employees occupy at the Conference's DC offices.

The Conference performs services related to non-depository activities on behalf of SRR. Costs allocated to SRR for these services were \$550,000 and \$0 for the years ended December 31, 2016 and 2015, respectively.

E. NMLS DEVELOPMENT COSTS

Acquisitions of property and equipment greater than \$5,000 are recorded at cost. The capitalized development costs of NMLS began amortizing when the system went live on January 2, 2008, and they were being amortized over the system's estimated useful life of seven years. The capitalized development costs of each subsequent update release version begins amortizing when the release becomes operational, and will be amortized over the estimated useful lives of each release, which are also determined to be seven years.

The capitalized purchase costs of the Cogent Background Check Automation System began amortizing when the system became operational in January 2010, and was amortized over a five year term. During the years ended December 31, 2016 and 2015, SRR recognized \$4,851,722 and \$5,162,273, respectively, of amortization expense related to capitalized software costs.

Net property and equipment consisted of the following at December 31,:

F. CAPITALIZED TEST DEVELOPMENT COSTS

In order to address provisions of the Secure and Fair Enforcement of Mortgage Licensing Act of 2008, SRR developed a national test component as well as state-specific test components which all state-licensed mortgage loan originators registering on NMLS are required to take. SRR is amortizing these test development costs over an estimated useful life of five years. During the years ended December 31, 2016 and 2015, SRR recognized \$63,129 and \$90,199, respectively, of amortization expense.

Net capitalized test development costs consisted of the following at December 31,:

	2016	2015
National test component	\$ 633,595	\$ 633,595
State-specific test components	376,047	624,367
	<u>1,009,642</u>	<u>1,257,962</u>
Less accumulated amortization	(950,550)	(1,135,741)
Total capitalized test development costs, net	<u>\$ 59,092</u>	<u>\$ 122,221</u>

G. COMMITMENTS AND CONTINGENCIES

Vendor relationship: The development of NMLS and its update releases is performed by FINRA. FINRA is also contracted to provide development support for NMLS' education and testing components. Given the size of the FINRA services contract, a disruption in the capabilities provided by FINRA could have a detrimental impact on SRR.

NMLS 2.0 development: In March 2017, the Boards of SRR and CSBS approved a contract for the development of NMLS 2.0, a redesign of the NMLS that will incorporate the latest technology and streamline the license approval process. The redesign of the NMLS will be performed by PwC and the services performed by FINRA will be gradually phased out. Budgeted expenditures range between \$42 million and \$50 million and the project is expected to be completed over several years.

H. RESERVES

In May 2014, SRR established a formal reserve policy. The primary purposes of the reserves are to ensure that SRR is financially prepared to meet the needs for planned system enhancements as well as uninsurable risks. Reserves are defined as unrestricted net assets less investments in items such as NMLS development costs and capitalized test development costs. Thus, the reserve balance at December 31, 2016 and 2015 was \$99,760,458 and \$78,700,654 respectively.
